

PROBLEM STATEMENT

A US-based Ecommerce Sales Company wanted to create an interactive Sales Dashboard to analyze Year-to-Date (YTD) sales performance and generate business insights for different scenarios.

Project Objectives

Create KPI banners showing:

- YTD Sales
- YTD Profit
- YTD Quantity Sold
- YTD Profit Margin

PROBLEM STATEMENT

- Analyze Year-on-Year (YoY) growth for each KPI and display YTD sparklines to understand monthly trends.
- Compare YTD Sales, PYTD Sales, and YoY Sales Growth across different customer categories with trend indicators.
- Analyze YTD Sales performance by State.
- Identify Top 5 and Bottom 5 Products based on Sales.
- Analyze YTD Sales by Region to determine the best and worst performing regions.
- Analyze YTD Sales by Shipping Type to identify the most preferred shipping methods.
